Housing Assistance Eligibility Status

I, _____, understand that Pathfinder Community Connections is making no written or verbal guarantees that I will receive any assistance from the housing program. I understand assistance is given in every way possible. I also understand that down payment assistance may be available to me. I understand that in order for me to receive down payment assistance I may be required to invest some of my own money. This amount may vary depending on individual situations and Pathfinder Community Connections will notify me how much money, if any, I will be required to bring to closing.

I certify that I have been informed at the Pathfinder Community Connections Homeownership Classes that if I change jobs, reduce or increase hours/income either before or during loan processing that I could lose my eligibility status and may no longer qualify for assistance with purchasing a home through Pathfinder Community Connections.

I have also been informed that I MUST pay my bills on time and that I cannot incur any additional debt. If I do need to incur additional debt, I will contact Pathfinder Community Connections to see if my debt to income ratios are okay prior to taking on new debt.

I certify that during the Home Buyer Education class I have received a copy of the Homeownership Training Guidelines and agree to abide by these guidelines.

Save \$985 on your utility bill

Taxes. In-laws. Some things in life just come with the territory. But a high utility bill doesn't have to be one of them. To make a dent in those monthly payments (and get back that \$985 in three years), start by asking your electric/gas company for an audit. Your carrier can check seals around doors and windows and inspect appliances – Is your refrigerator's gasket loose? The level of Freon in your air conditioner too low?

If you need to replace an old washer or fridge, shop for an appliance that bears the federal Energy Star logo (www.energystar.gov); such products use less power than standard appliances and often earn you a rebate from your utility company. Then try these do-it-yourself fixes. Your savings will depend on the size and age of your home, where you live, and your heating fuel, but all the products listed mean more money for you.
